Summary

Full-Stack Developer with experience in delivering scalable web solutions using React, Node.js, and Spring Boot. Proven impact on system performance (40%+ gains), modular codebases, and secure APIs. Fast learner, sprint reliable, and focused on clean architecture and dev efficiency.

Experience

iSchoolConnect – Fullstack Development Intern

Feb 2025 – Present

Noida, India

- Built cloud-native microservices using NestJS and Spring Boot for 10k+ users.
- Cut API response time by 30% via query tuning and middleware optimizations.
- Integrated JWT-based RBAC authentication and CI pipelines with GitHub Actions.

BigOhTech – React Graduate Engineer Trainee

Jul 2024 – Sep 2024

Delhi, India

- Created reusable, responsive components in Next.js using atomic design.
- Improved app performance by 40% with lazy loading and code splitting.
- Conducted 25+ code reviews focusing on accessibility and SEO.

Projects

QuizMe – Scalable Quiz Platform

GitHub

- Built with TypeScript and MUI using Vite for optimized bundling and fast load times.
- Developed modular UI components and custom React hooks for question logic and state.
- Integrated timer countdown, scoring system, and dynamic feedback based on user input.

SkyCast – Real-Time Weather App

GitHub

- Consumed OpenWeatherMap API to fetch current weather data using Axios.
- Implemented geolocation and fallback search with real-time UI rendering in React.
- Handled async loading states and error messages with responsive design in mind.

MusicMate – Music Exploration UI

GitHub

- Built frontend using React to browse and preview songs using Apple Music API.
- Implemented search-based filtering, responsive grid layouts, and audio preview.
- Focused on user interaction UX using debounce, conditional rendering, and local state.

DinoRunner – Responsive Web Game

GitHub

- Developed infinite-runner game using JavaScript and HTML5 Canvas API.
- Added adaptive difficulty scaling, real-time collision detection, and score tracking.
- Designed game loop using ‘requestAnimationFrame’ for 60 FPS smooth rendering.

Education

Maharaja Surajmal Institute of Technology, Delhi

B.Tech – Computer Science and Engineering

CGPA: 8.94

2020 – 2024
