Summary

Proactive Full Stack Developer with 2+ years of experience delivering scalable, high-performance web applications using **React**, **TypeScript**, **Node.js**, and **Spring Boot**. Skilled in RESTful API design, performance optimization, CI/CD integration, and writing clean, maintainable code. Known for taking ownership, collaborating cross-functionally, and driving full-cycle feature delivery in Agile environments.

Technical Skills

Frontend: React, Next.js, TypeScript, Redux, Tailwind CSS, Vite

Backend: Node.js, NestJS, Spring Boot, Express.js

Database: MongoDB, PostgreSQL, MySQL, Prisma ORM

DevOps: GitHub Actions, Docker, Postman, CI/CD Pipelines

Other: REST APIs, JWT Authentication, Agile (Scrum), Git, MVC Architecture

Experience

iSchoolConnect – Full Stack Development Intern

Feb 2025 – Present

Noida, India

- Engineered RESTful microservices using **NestJS** and **Spring Boot**, powering core platform functions for 10K+ users.
- Enhanced API response times by **30%** through optimized SQL queries and middleware improvements.
- Implemented secure JWT-based authentication, enforcing access control and session management.
- Automated build and deployment with **GitHub Actions**, reducing manual release efforts by 40%.
- Collaborated in Agile sprints, resolving 20+ cross-functional tickets covering both frontend and backend layers.

BigOhTech – Frontend Developer Trainee

Jul 2024 – Sep 2024

Delhi, India

- Built dynamic, reusable UI components using **Next.js** and atomic design methodology.
- Improved application load speed by **40%** with lazy loading, dynamic imports, and route-level code splitting.
- Reviewed 25+ pull requests to ensure adherence to accessibility, responsiveness, and modularity standards.
- Translated Figma designs into responsive UIs optimized for performance and maintainability.

Projects

QuizMe – Quiz Platform

github.com/gamakgrover2002/Quiz-App

- Developed a full-featured quiz platform with **TypeScript** and **Vite**, reducing load time by 60% vs CRA.
- Implemented real-time scoring, timer functionality, and answer feedback across 50+ active users.
- Managed feature development and issue tracking using GitHub Projects and Issues.

SkyCast – Weather App

github.com/gamakgrover2002/weather-app

- Integrated OpenWeatherMap API using Axios with sub-500ms average response latency.
- Implemented location-based weather detection and manual city search for 100+ supported cities.
- Achieved **95%+ Lighthouse scores** for performance, accessibility, and SEO.

MusicMate – Music Search UI

github.com/gamakgrover2002/music-store

- Connected to Apple Music API to stream track previews with dynamic search and category filtering.

- Reduced unnecessary re-renders by 40% using memoization and dynamic component loading.

DinoRunner – JS Game

github.com/gamakgrover2002/jsgame

- Created an infinite runner game using HTML5 Canvas with 60 FPS smooth gameplay.
- Implemented scoring system, obstacle spawning, and optimized total bundle size to under 2MB.

Education

Maharaja Surajmal Institute of Technology, Delhi

B.Tech – Computer Science and Engineering

2020 – 2024

CGPA: 8.94 / 10

Leadership & Volunteering

Tech Volunteer – E-Summit, MSIT

Mar 2023

- Oversaw AV operations for 500+ attendees across 3 venues during a major tech event.
- Ensured real-time technical troubleshooting and uninterrupted speaker sessions.
